

Michael Bools KC

YEAR OF CALL: 1991 YEAR OF SILK: 2012

"Michael Bools is absolutely superb: he is very good on his feet, his paperwork is immaculate and he is someone whom solicitors love working with"

Chambers & Partners 2024

Clerk's Email: PaulsClerkingTeam@brickcourt.co.uk

Practice Overview

Michael Bools's practice covers all areas of commercial law and advocacy and he has particular experience in large scale fraud cases and energy and natural resources disputes. He appears at all levels of the court system and in arbitrations and mediations.

He has recently been heavily involved in both in the *Privat Bank* US\$2.6 billion fraud litigation as well as ENRC's long-running claim against *Neil Gerrard and Dechert LLP*.

He is recommended by the legal directories in the fields of commercial dispute resolution, civil fraud and energy and natural resources. Chambers & Partners 2024 describes Michael as "brilliant" and "a great team player who is both academic and practical" while the Legal 500 2024 reports that "He squeezes every drop of juice he can out of difficult cases, and does it with charm and a smile".

Commercial

Commercial Litigation

Michael has a broad-based commercial practice which involves litigation and arbitration both at first instance and at appellate level. He is also called to the Bar of the British Virgin Islands.

Fraud

Many of Michael's current and recent cases involve fraud. In particular, he is currently instructed in *Privat Bank v. Kolomoisky et al* and has acted for Mr Kolomoisky since the inception of the dispute

in 2017, including at the interlocutory, jurisdictional stage, both at first instance ([2019] 1 All E.R. (Comm) 971, Fancourt J) and in the Court of Appeal ([2020] Ch 783); and at the trial between June–November 2023. Michael also acts for Dechert LLP in its dispute with ENRC and did so at both recent trials ([2022] EWHC 1138 (Comm), liability) and ([2023] EWHC 3280 (Comm), causation and quantum).

Other examples of the variety of fraud cases in which Michael has been involved have included: defending an alleged fraudulent presentation under a standby letter of credit (both at first instance, *Petrosaudi Oil Services (Venezuela) Ltd v Novo Banco SA* [2016] EWHC 2456 (Comm), and in the Court of Appeal [2017] EWCA Civ 9 and [2017] EWCA Civ 32); representing the seller in a claim to rescind the sale of a 1954 Ferrari model 375 Plus Grand Prix Roadster (*Bonhams 1793 Ltd v Kleve, et al*); and representing Bambino Holdings Ltd (the Ecclestone family trust company) in the long running dispute about the sale of Formula 1 in 2005/6 which resulted in two substantial actions: *Constantin Medien AG v. Bernard Ecclestone and others* [2014] EWHC 387 (Ch) and *Bluwaters v. Bayerische Landesbank*.

Chambers and Partners notes that "He's got exactly the right touch for the big cases" (2017) and that "he is the glue for the team" (2020).

Energy and Natural Resources

Michael is recommended by both Chambers & Partners (2024) and the Legal 500 (2024) in Energy and Natural Resources, being described by the former as "think[ing] through practical issues very well and ... very client- and user-friendly" and the latter having noted that Michael is "Well versed in international energy disputes for major oil companies" (2020) and "understands the energy sector extremely well" (2018-19).

He regularly advises major oil companies including, *TotalEnergies, Centrica, Chevron, Shell, BP* and *ExxonMobil*. He also appears in energy related disputes both in the Commercial Court and in arbitration. Of particular interest is the Court of Appeal's decision in *British Gas Trading Ltd v. Shell UK Ltd* ([2020] EWCA Civ 2349) which, while dealing with issues as to the proper construction of a long term take or pay GSA, also considered the appropriate counterfactual to be applied in determining damages for breach, the Court finding, as *McGregor* (21st Ed, §8-142A) puts it: "...the normal measure of damages entitles a buyer to the value of performance promised even if it is impossible. And the counterfactual for the recovery of consequential losses depends on what would have happened if the seller had not been in breach. It does not ask what would have happened if the seller had known that it would be in breach". Other cases of note include: a Commercial Court claim in relation to the sale by Litasco of substantial oil cargoes for importation into Yemem; *Cadogan Petroleum Holdings v. Global Process Systems* [2013] 2 Lloyd's Rep. 26, involving a disputed sale and purchase agreement relating to two gas plants and issues as to the applicability of the penalty doctrine to forfeiture clauses; *Venture North Sea Gas Ltd v. Nuon Exploration & Production UK Ltd* [2010] EWHC 204 (Comm), an expedited Part 8 trial to

determine whether *Nuon* was contractually obliged to complete a £100 million purchase of various North Sea gas fields; *Colour Quest Ltd & ors v. Total Downstream UK PLC & ors* [2009] 2 Lloyd's Rep. 1, representing *Chevron* in relation to its potential liability arising out of the explosion at the Buncefield oil terminal (both at the trial and before the Court of Appeal); and *Shell UK Ltd v. Revenue and Customs Commissioners* [2008] STC (SCD) 91 (scope of liability for petroleum revenue tax).

A considerable proportion of Michael's practice also involves energy related disputes in arbitration proceedings: see 'Arbitration' below for examples.

General Commercial (and others!)

In addition to fraud and energy and natural resources, Michael's practice encompasses commercial law more generally. By way of examples only, he appeared as a junior (unled) at first instance, in the Court of Appeal and, ultimately, in the House of Lords in *Scottish & Newcastle v. Othon Ghalanos* [2008] 1 Lloyd's Rep. 461 (HL) and [2007] 2 Lloyd's Rep. 341(CA), the leading authority on Article 5(1)(b) Brussels Regulations - jurisdiction, place of delivery under a CFR contract; he represented Mr Crehan, with others, in the House of Lords in *Crehan v. Innpreneur Pub Co.* [2006] 3 WLR 1; acted for ITV in its long-running dispute with *STV* in actions before both the Commercial Court and in the Chancery Division; and was involved in a number of disputes arising out of the banking crisis and, in particular, two cases centred on the collapse of *Lehman Brothers* in relation to which he advised a large pension fund in relation to losses suffered as a result of the investment of cash collateral from a stock lending program in *Lehman's* and represented a large sovereign wealth fund in an LCIA arbitration centred on the allegedly negligent loss of stock deposited with *Lehman* with an unlimited right of use; and in *IC Mutual v. Robinson et al* Michael acted for the administrators of an investment fund in claims against the fund's auditors for negligence in relation to an alleged *Ponzi* scheme.

In addition, Michael maintains an interest in shipping law and is the co-author of Aikens, Lord & Bools, *Bills of Lading*, (Informa 2021), now in its third edition. His doctoral thesis, *The Bill of Lading as a Document of Title to Goods: an Anglo American Comparison*, was published by LLP.

Finally, as a general commercial barrister, Michael has been involved in a number of more unusual cases, including, representing the FIA in disciplinary proceedings against the Mercedes Formula One Team for in-season tire testing; obtaining an urgent injunction to restrain the removal from the jurisdiction of a £1.2 million Santo Serafino 'cello made in Venice in 1752 (*Madame Françoise Chamarre v. J & A Beare Limited*); acting for the seller of a 375 Plus Grand Prix Roadster Ferrari against Bonhams (*Bonhams 1793 Ltd v Kleve, et al*); advising on the public international law aspects of the shooting of Jean Charles de Menezes; and acting for a large number of soldiers involved in the *Bloody Sunday Inquiry*, including in three judicial reviews of the tribunal's decisions in relation to the anonymity of witnesses and the venue for their evidence: *R (A and others) v Lord Saville of Newdigate and others* (CA) [2002] 1 WLR 1249 (Venue for military evidence); *R v Lord Saville of Newdigate et al, ex parte A et al* [2000] 1 W.L.R. 1855 (CA) (Anonymity); and *R v The Bloody*

Sunday Inquiry, ex parte B and others (CA), The Times 5th April 1999).

Freezing Orders

Perhaps inevitably, given the nature of Michael's practice, he has considerable experience in the obtaining, defending and operating of freezing orders. Most recently, he has argued issues relating to additional disclosure orders in relation to frozen assets ([2023] EWHC 165 (Ch)), mandatory ancillary orders requiring positive action to preserve frozen assets ([2022] EWHC 1445 (Ch)) and as to the scope of the ordinary and proper course of business exception ([2018] EWHC 1910 (Ch) and [2018] EWCA Civ 3040). More distantly, Michael was instructed in the now seminal case on the role of disclosure orders in *Motorola Credit Corporation v Uzan and others (No.1) (CA)* [2002] EWCA Civ 989, 26 June 2002 (refusal of stay of disclosure); and the inexpediency of worldwide freezing orders in support of foreign proceedings *Motorola Credit Corporation v Uzan and others (No.2) (CA)* [2004] 1 WLR 113. Other freezing order cases in the UK include *Mobil Cerro Negro Ltd v. Petroleos de Venezuela SA* [2008] 1 Lloyd's Rep. 684; and *Director of the Assets Recovery Agency v Creaven & ors* [2006] 1 WLR 622 (freezing order in asset recovery proceedings – quasi in rem proceedings – legal and living expenses) and in the BVI *Garkusha v. Yegiazarian et al* (2015, Comm Ct, BVI).

Enforcement of Judgments and Awards

Michael's interest in the enforcement of foreign judgments and awards has led him to be involved in a number of particularly interesting cases raising issues about enforcement proceedings against States. In particular, *Svenska v Government of Lithuania* concerned the enforcement of a New York Convention award and whether that involved proceedings that were related to the underlying transaction for the purposes of s.3(1)(a) of the State Immunity Act, 1978 as well as complicated questions of whether the tribunal's determination of its jurisdiction gave rise, in the circumstances, to an issue estoppel and as to the proper scope of s.9 of the 1978 Act (see, [2005] 1 Lloyd's Rep. 515 (Teare J); [2006] 1 Lloyd's Rep. 181 (Gloster J); and [2007] 2 WLR 876, Court of Appeal). In a related vein, in *Gold Reserve Inc v. Bolivarian Republic of Venezuela* [2016] 1 W.L.R. 2829 Michael represented the investor in a claim to enforce a US\$713 million award under the ICSID Additional Facility Rules which raised issues as to the procedure for service of enforcement proceedings on a State as well as issues as to the construction of the relevant BIT and the duty of full and frank disclosure. Other enforcement proceedings include *Tidewater v. Bolivarian Republic of Venezuela* (ICSID) and *Alfred Mann v. Roland 'Roel' Pieper* (New York Court).

Arbitration

Michael is regularly instructed as counsel in arbitrations involving a wide range of commercial disputes: typical examples include an ICC arbitration relating to the supply of an LNG storage and regassification vessel; a SIAC arbitration determining the competing information rights as between

joint venture partners; an UNCITRAL arbitration of disputed entitlements under an offshore drilling contract; an ICC arbitration involving a dispute as to whether a State was bound by an exploration agreement signed on its behalf by a Vice President; a three week arbitration between the parties to a cancelled shipbuilding contract; representing a large sovereign investment fund in a dispute about payments due under a sale and purchase agreement for an interest in a Sudanese oil field; advising in relation to potential liability for a collapsed stow; acting for Mobil Oil Nigeria in arbitral proceedings arising out of a joint venture agreement for the exportation of bitumen from Nigeria; an arbitration between joint venture partners involving diamond mining licences in Arkhangelsk; and an LCIA arbitration arising out of the collapse of *Lehman Brothers*.

Qualifications

DPhil (Oxon), LLB (Hons) (UEA), Barrister, Diplock Scholar of The Middle Temple, 1990-1991.
