Practice Overview

James Flynn KC is a leading competition law litigator at the London Bar. His wide experience at the Bar builds on his years of practice at a magic circle law firm in London and Brussels together with his work as a Legal Secretary at the European Court of Justice. Current high-profile cases in London include acting for the Road Haulage Association against the truck cartel in the first opt-in collective proceedings authorised by the Competition Appeal Tribunal and for a large number of Brazilian orange growers seeking damages in the Commercial Court in respect of a cartel in orange juice processing, as well as in proposed collective proceedings relating to resale price maintenance in the musical instrument sector. He has considerable expertise concerning the interface between Competition and Intellectual Property law, particularly on the licensing of Standard Essential Patents and FRAND terms (acting for Qualcomm, IP Com and Samsung) as well as acting for GSK in its appeal against the UK's first pharmaceutical patent reverse settlement proceedings (including a reference to the European Court of Justice). Significant CAT appeals over the years include acting for Sky in the long-running Pay TV litigation; for BMI in relation to the Private Healthcare Market Investigation (in relation to procedural fairness in the course of a CMA market investigation); for Aer Lingus in its dispute over Ryanair's protracted hostile shareholding; and for Asda in the successful appeals against the OFT's Tobacco decision. His experience of competition damages cases embraces follow-on (public examples include envelopes, synthetic rubber and CRT and LCD screens) and standalone actions in the High Court and CAT, including acting for Intrepeneur in *Courage v Crehan*, the first standalone damages case to go to full trial in the United Kingdom, and for Cardiff Bus in the first follow-on damages action to come to trial and to lead to a damages award. He also appeared in the leading cases on the interaction between criminal law and competition law. Recent appearances in Luxembourg include the appeals against the retaken Air Cargo decision (acting for Cathay Pacific) and an important appeal concerning the right for NGOs to request a review of decisions of EU bodies in the environmental sphere (acting pro bono for ClientEarth). Notable previous EU cases include the leading authority on legal

privilege in competition proceedings (Akzo Nobel) and the landmark Microsoft appeal. He has experience of arbitrations, as counsel, expert witness and arbitrator (including in *Queen's Park Rangers v EFL* in respect of the application of the Championship rules on Financial Fair Play and *Golfers v PGAET*, concerning the legality of the DPWT's sanctions on members who played for LIV).

He also has considerable experience of EU state aid and post-Brexit UK subsidy law, as well as public procurement, telecommunications and broadcasting regulation, direct and indirect taxation, free movement and professional and financial services regulation. He was named as EU and Competition Law Silk of the Year in 2011 at the Chambers Bar Awards and was shortlisted for Competition Law Silk of the Year in the 2022 Legal 500 awards.
