Practice Overview

Tom is a leading barrister in the fields of commercial, arbitration and competition law. He has been described as *"a star in the making"*, *"sharp as a tack"*, *"someone to watch"* and a *"sharp and strategic thinker"*. Solicitors have praised him for being *"super clever"*, *"speedy, decisive and polished"*, having *"strategic acumen beyond his year of call"* and being *"in high demand for a reason"*. He is ranked in the directories as a leading junior in the areas of commercial, competition and energy law.

Tom has worked on many of the most significant cases in these fields in recent years, such as *Federal Republic of Nigeria v P&ID*, a two-month Commercial Court trial in 2023 worth US\$11 billion described as one of the "world's largest lawsuits"; *NMC v Ernst & Young*, a multi-billion dollar audit negligence and fraud claim arising out of the collapse of a private healthcare group in the UAE; *Facebook v CMA*, a test case concerning the competition regulators' powers to intervene in big tech acquisitions; and *Pfizer/Flynn v CMA*, a competition case concerning alleged excessive pricing of an epilepsy drug which has been ongoing for more than eight years. Tom acts in a number of the leading follow-on damages claims and class actions, including *Trucks* (where he has been representing MAN, instructed by Slaughter and May, for more than five years) and *Forex* (where he has been representing RBS, instructed by Macfarlanes, for several years).

Tom also has a heavyweight practice in arbitration. He has appeared in numerous multi-billion dollar arbitration hearings in London and abroad, and has acted in a number of leading cases concerning the enforcement and set-aside of arbitral awards before the English courts. He has particular expertise in setting aside arbitral awards on grounds of fraud.

Tom has a background in public law, having appeared before the Supreme Court in the well-known *Miller* case concerning the government's decision to trigger the process for exiting the EU. He is happy to accept *pro bono* instructions in public law and human rights cases, and has particular experience of *pro bono* cases concerning refugee law.

Tom's work is a mixture of work led by Kings Counsel and unled work. He routinely appears unled before the High Court, and has done so in a number of multi-billion dollar heavyweight commercial cases. He has a first-class law degree from Robinson College, University of Cambridge and a BCL degree from Trinity College, University of Oxford.
